## Tap into the Natural Abundance of the Science of Success

### A Deep Storehouse Of Knowledge And Wis- dom

“One of the earliest workshops I took was the Silva Mind Control Course... The most important technique I learned in that course was the basic technique of creative visualization... Our rational mind is like a computer... **The intuitive mind, on the other hand, seems to give access to an infinite supply of information.** It appears to be able to tap into a deep storehouse of knowledge and wisdom...”

~ Shakti Gawain, *Silva Graduate & Best-selling Author Of Creative Visualization*

“By offering the Silva Method to (our) employees we provide **an opportunity to experience for themselves the power of**

**the mind...** Experiencing the Silva techniques, rather than just hearing people talk about it, is **very powerful.** It's like the difference between seeing a travelogue about the Grand Canyon and personally standing on the edge of it... **Silva demonstrates that there is no limit to what the mind can do.**”

~ Robert Stiller, *President & CEO of Green Mountain Coffee Roasters and Forbes Magazine Entrepreneur of the Year*

**Dear seeker of strong intuition,**

Nine in ten people have the wrong idea about intuition. **Why?** Most of us believe that intuition is a *talent*. That only a privileged few possess the ability to ever fully realize their intuitive senses, and reap the rewards that come with it.

**But this assumption could not be further from the truth.**

And here's why...

### **FACT: Human Intuition Is A Trainable Skill**

In fact, it's more than trainable. It's a natural skill that we're all born with. The bond between babies and moms, the high creativity of kids, much of this is credited to our natural human intuition.

But something happens as get older.

Society, schooling, cultural beliefs, our upbringing, all come together to cause us to ignore this sixth sense and function in a logical, 5 sensory world devoid of the power and dazzling creativity that comes from intuition. We each grow up as adults, handicapped from having our natural intuition, our third eye – permanently shut!

Listen, it's not your fault. But with the right process, you can once again recover your intuitive senses.

Once you remove this resistance to intuition, you'll be able to up your intuitive ante in every way and begin experiencing high-level intuitive living. We also teach you how to identify your mission in life and to use the power of your creative mind, to propel you toward this goal. Intuition is important to you because it can help you make better choices and decisions.

**Total intuitive living** is the Silva Method's goal for each and every Silva student. Our experience shows that over **90%** of Silva students experience an astonishing level of intuition after just **two days** of our intuition training.

These extremely high success rates are a result of over 5 decades of research and millions of dollars spent into perfecting the process of enhancing human intuition.

## Silva Intuition System

by Jessie Bowen

The most powerful instrument we have in our hand is the power of our mind." Napoleon Hill made that statement over 75 years ago. The good news is, Jose Silva expanded on Napoleon Hill's work and created ingenious methods to help anyone transform themselves into a "super-achiever."

Are you a salesman, entrepreneur, business executive, retired, starting out, house-

wife, high school dropout, blue collar or white collar worker? It doesn't matter.

We're all here to fulfill our mission — whether it raising two wonderful kids, writing an influential book, saving the rain-forests or launching a multi-million dollar business and creating jobs for hundreds of people.

In the Seminar you learn how to apply your mind to first discover what you should be doing. You then learn how to apply your mind to success at doing it.

### Introducing: The Silva Intuition System; Comprehensive Intuitive Training System

You have the same "equipment" -- *the same intuition potential* -- that professional intuitive and psychics have. With the Silva Intuition System you can get the training and practice you need to develop your natural intuitive and psychic abilities, and begin fulfilling.

What You Will Learn...

#### MASTER THE ART OF DYNAMIC MEDITATION

Learn how to put yourself into a deep level of meditation within 60 seconds flat. Nothing bothers you. Sounds don't disturb you. Stress melts away. Headaches and migraines... may vanish forever. Productivity soars. Ambitions stay clearly on focus without distraction. Worries no longer suffocate you. And, as TIME Magazine reported in a cover story... "Meditation is being recommended by more and more physicians as a way to prevent, slow or at least control the pain of chronic diseases like heart conditions, AIDS, cancer and infertility." Fortunately, the Silva System takes the art of meditation to a whole new level. It's unprecedented!

#### UNDERSTAND & CONTROL YOUR MIND

Are you overweight? Do you smoke? Do you have trouble with motivation, diet, exercise... sticking to personal resolutions?

With the Silva Intuition System, you apply a technique called the HoloViewing Technique to get guidance and insight on what actions need to be taken to correct such problems.

You then implement the correction using a technique called the Mirror of the Mind Technique. It's a two step process that is far more powerful than simply self-hypnotism, affirmations or visualization.

Amazing But True! Addictions have no control over you. Cravings and needs such as uncontrollable "binge eating" cease to exist.

#### TAKE CREATIVE VISUALIZATION TO A NEW LEVEL

Your mind is well adept at creating "coincidences" and "opportunities" and of controlling "luck" in pushing you towards your goals. In other words, you may command the power of thought to influence reality.

But here's the problem with many such visualization systems — if you attempt to manifest something that is not part of higher intelligence's plan for you than you may end up failing or worse — attracting things that are wrong for you.

Jose Silva was aware of this limitation and in the Silva Intuition System we focus on teaching the student how to use their minds at the Delta level (while they sleep) to identify the right goals and discover their life mission.

## Fifty seven year track record of success

The Silva Method began as a research project in 1944, and became available to the general public in 1966. There are over 13 million people currently using these methods in 109 countries. While we continually strive for growth and improvement, the formula type techniques taught in the Silva method remain as pure and effective as ever. The successes are well documented.
